Flower: Daisy

April's flower is the daisy, one of the oldest and best-known English flowers. According to legend, the first daisy appeared when a young nymph turned herself into one to avoid unwanted attention. Thus, the flower has come to symbolize modesty, chastity, and innocence. The daisy is also used to tell if "he loves me" or "loves me not."

Birthstone: Diamond

The birthstone for April is the diamond. For centuries, this stone has signified romance, intrigue, power, greed, and magic. In the Middle Ages, it was used to cure headaches and to create love potions. Today, it symbolizes everlasting love.

April Fool's Day

April Fools' Day—celebrated on April 1 each year—has been celebrated for several centuries by different cultures, though its exact origins remain a mystery. April Fools' Day traditions include playing hoaxes or practical jokes on others, often yelling "April Fools!" at the end to clue in the subject of the April Fools' Day prank. While its exact history is shrouded in mystery, the embrace of April Fools' Day jokes by the media and major brands has ensured the unofficial holiday's long life.

Easter Celebrated

Why Is Easter Celebrated in Spring?

Easter is what's known as a "movable feast"—in other words, a religious holiday that may fall on a different calendar date from year to year.

Easter is tied to the relationship between the Paschal full Moon, and the Church's fixed date of the March equinox (also called the spring or vernal equinox in the Northern Hemisphere), which is March 21.

Fun Fact: "Paschal" stems from Pascha, the Greek and Latin word for Passover.

Easter Candy

- Americans spend \$1.9 billion on Easter candy.
- 70% of Easter candy purchased is chocolate.
- An average of 5.5 million Peeps are made every day.

Call Lights

Please refrain from wrapping the call light cord around your bed or wheelchair, as this may damage the cord and prevent it from properly functioning.
